California Cities for Local Control, a growing coalition comprising to-date of over 416 locally-elected California City Mayors and Councilmembers, supports AB 787 (see website referenced below for list of elected officials).

Giving cities the flexibility to meet regional housing needs by acquiring and converting existing multifamily buildings to deed-restricted low income housing or by imposing affordability covenants on such buildings is a welcome option.

This bill helps to support ongoing local planning efforts and respects the insights of local leaders.

Sincerely,

Mike Griffiths
